

Baccarat

Material The Baccarat collection distinguishes itself thanks to the refined round corners and oblique legs and/or sides.

The furniture is made of real oak and finished in the chic color "dark coffee". The beautiful structure of the oak is even better visible because of this dark colour.

Maintenance Just like everything you care about and want to keep beautiful also the Baccarat collection requires maintenance. It is sufficient to clean the furniture with a (slightly damp) clean (preferably cotton) cloth.

Cleaning products contain harmful bleaching ingredients and chemicals that can change the color affect: its use is not recommended.

Remove stains or spilled liquids immediately. DO NOT rub spilled liquids, just dab them with kitchen paper or an absorbent cloth. Do not use silicone-containing furniture care products or a solvent such as stain remover, white spirit, benzene, thinner or similar agents.

To prevent damage and/or circles in the wood, we recommend using coasters.

If you observe the above maintenance advice you will have fun for a long time to come of your Baccarat furniture.
