

Luxor

Material “Unique design” is probably the best description for the look of the Luxor collection. Round and oval shapes, ribbed sides in a warm brown shade combined with iron frames and handles in a brushed brass finish.

Luxor is made of high quality furniture board with brown stained oak veneer.

Maintenance To keep your Luxor furniture looking beautiful, it is important to maintain it the right way, as you would with other cherished items.

Remove stains immediately; DO NOT rub spilled liquids, but dab them with paper towel or absorbent cloth.

DO NOT use silicone-containing furniture care products or a solvent such as stain remover, turpentine, benzene, thinner or similar resources. Also cleaning products with abrasives and bleaching additives (e.g. lemon) are strongly discouraged.

Stains can best be removed with some water and a mild natural soap if necessary.

To clean the handles and frames it's best to use a soft, slightly damp cloth.

Under no circumstances should you use scouring pads and cleaning products containing abrasives as they can cause scratches.

The above maintenance recommendations guarantee a long life for your valuable Luxor furniture.
