

Oakura

Material The chic Oakura Black collection is made of black-stained oak. The frames of the tables and cabinet doors are black powder-coated.

Maintenance It is important to maintain your Oakura furniture in order to keep it looking beautiful, as you would with other cherished items.

Remove stains immediately; do NOT rub the spill, dab it with a paper towel or an absorbing cloth.

Do NOT use or apply any furniture maintenance products containing silicone or solvents like; stain removers, turpentine or white-spirit.

Stains can be removed with water and mild natural soap if necessary.

Be careful with cleaning products containing bleach additives (Lemon for example).

Abrasive cleaning products shouldn't be used at all.

The top only needs regular dusting, the steel frames and doors can be best wiped with a damp cloth.

Never use abrasive sponges and detergents with abrasives because these can leave scratches in the powder coated layer.

This way you will keep your furniture looking beautiful and it will last for ever.
